J&A USA is in the state of New York with a commitment to manufacture quality pedicure spas. J&A USA believes the specifications in this booklet to be correct at the time of publication. However, specifications, standard equipment, options and colors are subject to change without notice. Please ask your authorized distributor for advice concerning current availability of standard and optional equipment. J&A USA requires that you contact a local, licensed plumber and licensed electrician to install your new pedicure spa. Installation must be in compliance with all of your local and state building codes. Your pedicure spa cannot operate efficiently or safely unless it is provided with adequate electrical power, sufficient water pressure, proper water temperature and required drainage capabilities.
